Based in Egypt · leading a Riyadh and Jeddah portfolio · ready to relocate to KSA or the UAE

Design authority with delivery discipline

Architect with 20+ years in architecture and design, and 5+ years at the head of design management and technical office functions. Head of Design Management Operations and the Technical Office at MENA Development & Real Estate Investment, a Saudi developer, since August 2023, reporting to the COO.

The DMO function was established from inception, with its governance, QA protocols, approval workflows and operating model. Design management and technical office responsibility covers 43 projects in Riyadh and Jeddah: residential towers, hospitality, townhouse compounds and two community parks delivered for the Diriyah Gate Development Authority.

Architecture is an act of service to every person who moves through a space: the technician in the service corridor, the family in its first home and the guest arriving at a suite. Their paths never cross. That is design.

Circulation first
How people enter, move, pause and leave is studied before a single wall is drawn. Every user gets a route that respects them.

Designing for the senses
Colour, light, texture, acoustics and scent are design materials. Calm tones where people rest, energy where they cook, eat and work.

Responsible by default
Site-responsive orientation, less waste and responsible specification, built for the community and the environment it sits in.

Wellbeing as the measure
Scale and budget are inputs. Every project is measured by the quality of life it returns to the people inside it.

One governed path from feasibility to as-built

The Design Management Office established at MENA governs every project through the same six stages, with a named owner and a recorded decision at each.

Stage 01

Feasibility

Site analysis, GFA optimisation and planning constraints for new acquisitions, presented to senior leadership.

Stage 02

Concept & design

Architectural identity, interior mood boards and the brief, aligned with Marketing, Finance and Procurement.

Stage 03

IFC

Multi-trade coordination of structure, MEP, architecture and interiors; conflicts resolved at documentation stage.

Stage 04

Shop drawings

Every technical submission reviewed and approved through the shop-drawing log and approval workflow.

Stage 05

Construction

Construction-phase technical rulings, and the design-to-procurement cycle for finishing and specialist packages.

Stage 06

As-built

As-built verification, so the handed-over building matches the approved design.

DEPARTMENT MANUAL

DMO Department Manual, based on RIBA, AIA and ISO 19650.

TEAM

Direct team of 4 (3 design engineers and 1 marketing liaison); up to 10 external parties per project.

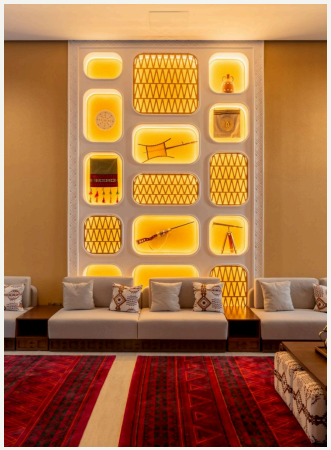

CONTRACTS

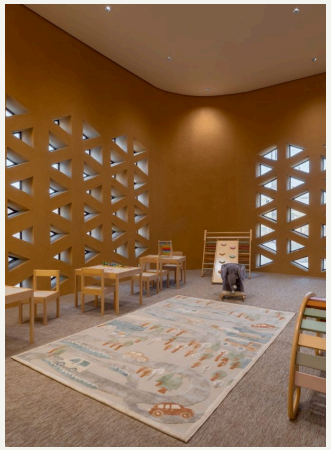

Contracts with sub-consultants, interior designers and specialist contractors are negotiated, structured and administered in-house.

PROCUREMENT

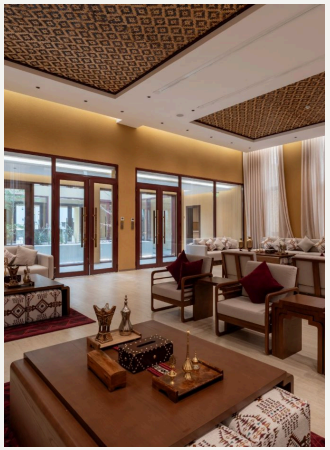

Specifications, BOQs, lux studies and supplier visits in KSA for finishing and specialist packages.

PUBLIC REALM AND COMMUNITY CENTRES · RIYADH

Al Maidan and Dahret Alouda Parks

DELIVERED

Two 15,000 sqm community parks for the Diriyah Gate Development Authority, with MENA as developer. Each park has its own Najdi-style community centre: a majlis, a co-working and multi-purpose hall, a kids' club and nursery, a coffee shop and open rooftop seating, set among sports courts, shaded play areas and walking paths. Design management and the interior design direction were led by the DMO.

CLIENT	Diriyah Gate Development Authority
DEVELOPER	MENA
PARKS	2 × 15,000 sqm
ROLE	Design management and interior design direction
STATUS	Delivered

Community centre and coffee shop, rooftop pergolas · Majlis with heritage display wall · Kids' club with triangular Najdi apertures · Courtyard seating · Majlis hall with woven ceiling panels. Site photographs of the completed parks.

Sports court and shaded play area

Co-working and multi-purpose hall

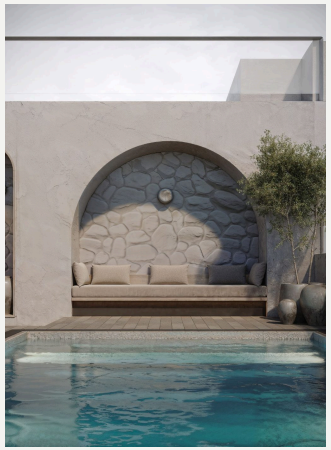

Coffee shop seating with triangle-pattern screen

On site

MIXED-USE LUXURY RESIDENTIAL TOWER · AS SAHAFAH, RIYADH

MENA Rise

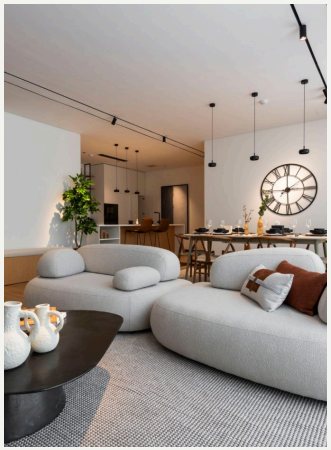

UNDER CONSTRUCTION

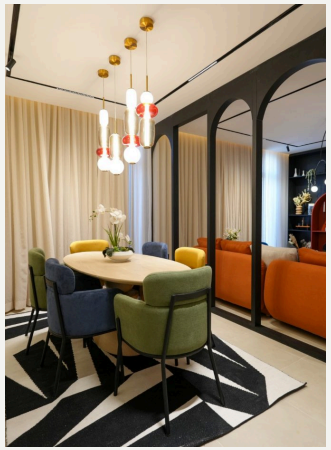

A 23-storey residential tower over a commercial podium, with lifestyle amenities on every resident's doorstep: gym, co-working, kids' club, infinity pool and penthouses. Design management and technical office work cover consultant coordination through to shop-drawing approval.

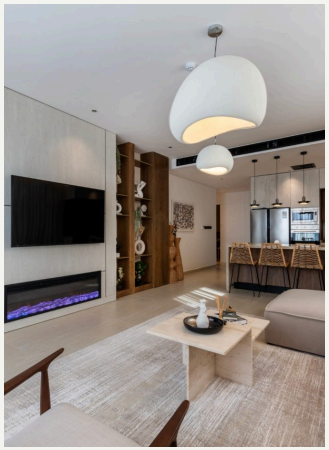

HEIGHT	23 storeys
UNITS	49
NET SELLABLE AREA	7,099 sqm
ROLE	Design management & technical office
STATUS	Under construction

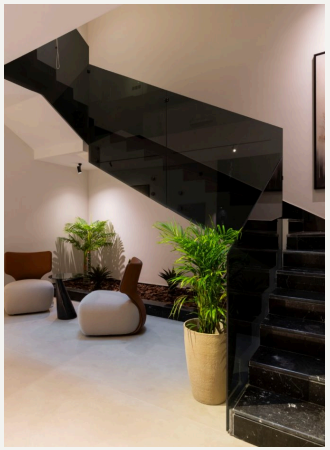

Studio apartment living room · The tower on site, façade works · Lobby reception · Residents' seating lounge · Kids' club. Project renders, and a site photograph of the tower under construction.

LOW-RISE RESIDENTIAL BUILDINGS · RIYADH

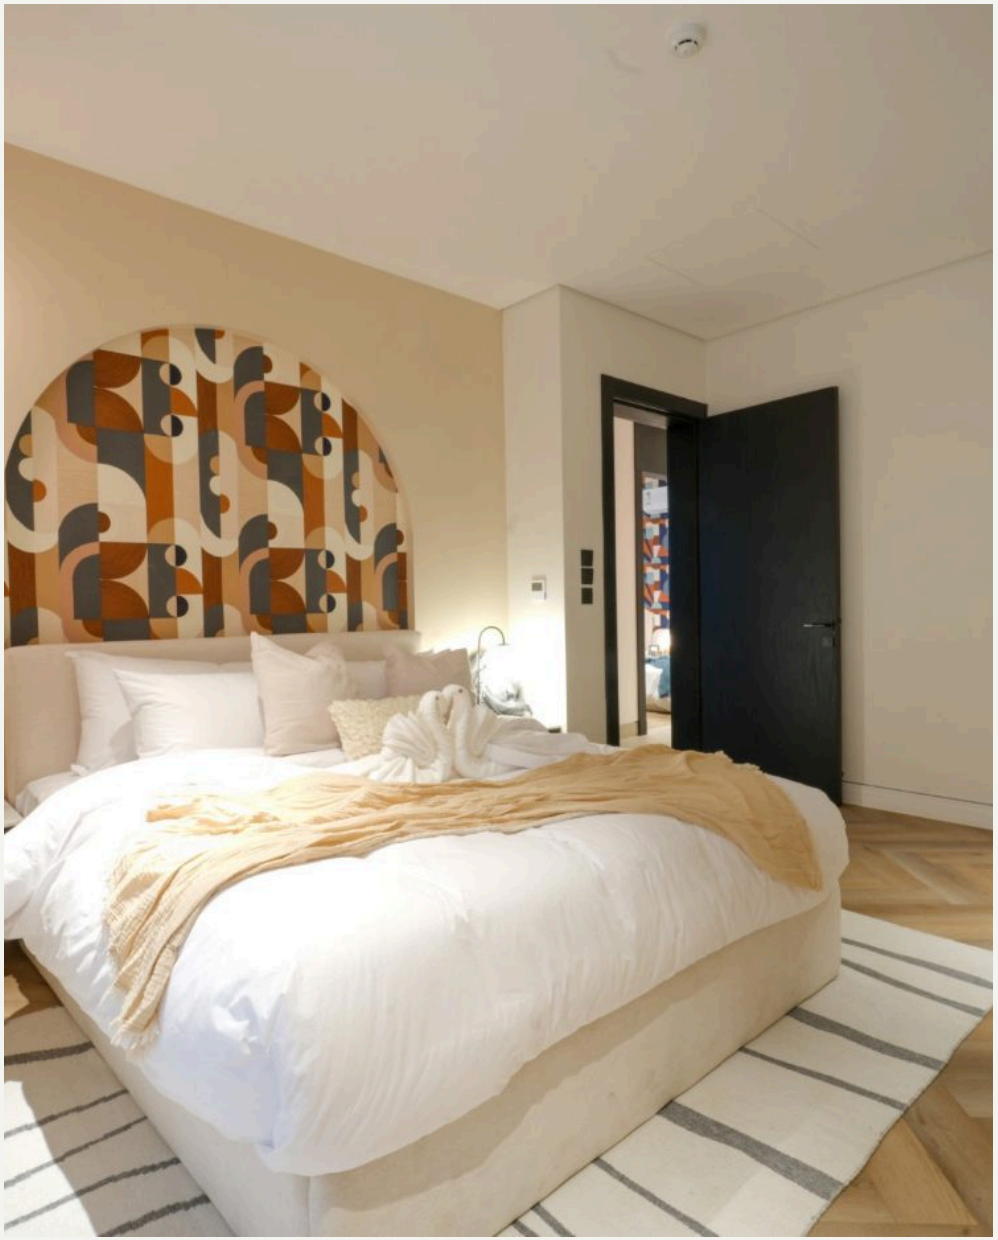

MENA residential portfolio

DELIVERED

Delivered low-rise residential buildings from the MENA portfolio, each with its own architectural identity and interior direction, from calm neutral palettes to a Memphis-style show flat. The identity and mood-board direction were set, and the design-to-procurement cycle was run for the finishing packages.

PROGRAMME	Luxury flats with premium fit-out
PORTFOLIO	43 projects, 400+ units
ROLE	Design management & technical office
STATUS	Delivered

Delivered building · Living and dining · Memphis-style show flat: dining · Open-plan living and kitchen · Lobby stair in black marble. Photographs of the delivered buildings.

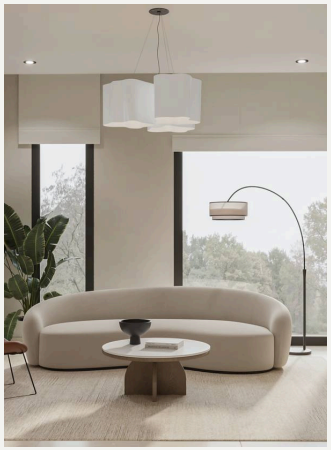

Memphis-style show flat: bedroom

HOSPITALITY · RIYADH

Hteen Suites (MENA Stay)

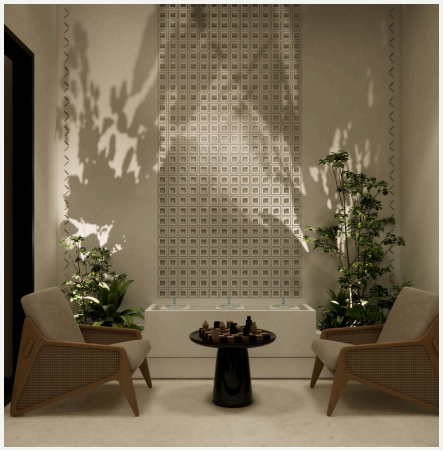

IN OPERATION

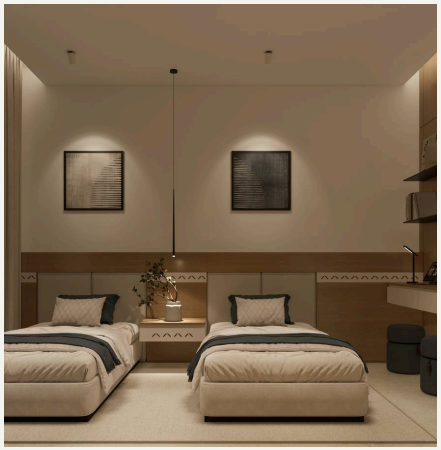

A 46-key hospitality development of furnished suites with a retail strip, business hub and pool, now in operation with a specialist operator. Design management and technical documentation were carried through delivery.

KEYS	46
PROGRAMME	Suites, retail strip, business hub, pool
ROLE	Design management & technical office
STATUS	In operation with a specialist operator

Suite living area and kitchen · Lounge · Bedroom · Guest corridor · Twin room. Project renders.

LUXURY TOWNHOUSE COMPOUND · RIYADH

Hay Al Malqa

DELIVERED

A townhouse community with a community centre, nursery, roof gardens and landscaped streets, delivered as part of the MENA residential portfolio.

TYPOLOGY	Luxury townhouses
AMENITIES	Community centre, nursery, roof gardens, landscape
ROLE	Design management & technical office
STATUS	Delivered

Master bedroom · Sitting alcove with screen wall · Twin bedroom · Courtyard garden. Project renders.

More of the MENA portfolio

WELLNESS AND AMENITY · COMPLETED · RIYADH

Premium Amenity Suite

Amenity floor with a resident lounge, men's and women's fitness facilities and wellness zones, in warm terrazzo, fluted timber and natural linen.

HOSPITALITY · DESIGN STAGE · JEDDAH

67-key hotel

Operator selection support: operator profiles and proposals evaluated.

ECO-LUXURY HOSPITALITY · PIPELINE · RIYADH REGION

Nojoud Lodge

100-key destination concept on a 212,600 sqm site, in contemporary Najdi architecture with a zero-carbon vision. A feasibility study and development strategy were prepared.

HOSPITALITY · RIYADH REGION

Boutique chalet retreat

16 chalets on approx. 10,000 sqm.

COMMERCIAL · PIPELINE · JEDDAH

Commercial office tower

Office tower in MENA's development pipeline.

Supervision and owner's representation

CAIRO AND ALEXANDRIA

Cleopatra Real Estate towers and compounds

Construction supervision of two high-rise towers (Cleopatra Plaza / Al Nasr Plaza, Nasr City; Alexandria Plaza, Shallalat) and the El Shorouk, Cleopatra Square and Esmeralda Bay compounds.

GREATER CAIRO

Owner's representative

Two luxury villas in Al Rabwa (Sheikh Zayed), a mosque in 6th of October City and the Administrative Prosecution Complex in the 5th Settlement, under FIDIC-based contracts.

EGYPT

Marhab Medical Clinic

Private healthcare facility: interior design, documentation and MEP coordination.

EXPERIENCE

AUG 2023 – PRESENT

Head of Design Management Operations & Technical Office

MENA Development & Real Estate Investment · Riyadh (remote, bi-annual site visits)

DMO function established from inception; 43 projects, 165,000+ sqm, 400+ units in Riyadh and Jeddah; reports to the COO.

MAR 2021 – JUL 2023

Head of Technical Office

Marhab Innovations · Egypt

Team of 12 engineers (5 office, 7 site): drawing production, specifications, BOQs, shop-drawing register and as-built log, subcontractor awards.

DEC 2019 – FEB 2021

Project Manager

Connect Architects & Planners Consultancy · Egypt

Owner's representative and multi-site supervision; payment certification, FIDIC-based quality escalation, snagging and defect registers.

DEC 2015 – AUG 2019

Assistant Lecturer, Architecture

Delta University for Science & Technology · Egypt

Design studios and lectures in design theory, construction technology and urban planning.

SEP 2005 – NOV 2015

Interior Design Consultant

Independent practice · Egypt

Interior and exterior design for high-end residential and commercial clients, from brief to site completion.

EDUCATION

2020 – EXPECTED 2027

Ph.D. candidate, Architecture: Heritage Management & Urban Planning

Mansoura University

Thesis: Towards Enhancing Cultural Tourism: Integration Between Tourism Planning and Archaeological Sites Management.

2011 – 2015

M.Sc. Architecture: Operations Management & Contracting

Tanta University

Thesis: Studying Optimal Organizational Structures for Contracting Firms of Classification 'A'.

2000 – 2005

B.Sc. Architectural Engineering

Mansoura University

WRITING

DMO Department Manual for Saudi Real Estate Investment & Development Companies 2026

The Buyer-Centred Project: a design-led real estate product methodology 2026

AI-GIS Integration for Monitoring and Predicting Archaeological Site Deterioration (systematic review) 2026

Artificial Intelligence in Architectural Engineering 2026

TRAINING AND MEMBERSHIP

Artificial Intelligence (course completed) ITC, Ministry of Communications & IT, Egypt · 2025–2026

Urban Land Economics & Real Estate Market Dynamics (course) Coursera · 2025

Project Management Diploma CTC Training & Consultancy · 2014
